

Upravljanje i organizacija bibliografskih podataka - Zotero

Antonija Mandić, dipl.bib.

Kako izraditi vlastitu
bazu podataka radova ?

- Za izradu vlastite baze podataka radova danas su na raspolaganju programi za upravljanje referencama poznati pod engleskim nazivima
- **reference management software, citation management software ili personal bibliographic management software**
- Njihova je glavna namjena organizacija i upravljanje prikupljenim referencama i cjelovitim radovima

Zotero

- besplatno dostupan program i korisnicima omogućava korištenje prikupljenih referenci i cjelovitih tekstova s različitih lokacija.
- napravljen kao plugin za Firefox, a razvoj je usmjeren i na ostale web preglednike kao i na desktop verziju

Mendeley

- također besplatni program za organizaciju i upravljanje referencama
- Za razliku od Zotera, Mendeley je samostalni desktop program i nije vezan uz web preglednik.
- Podaci o radovima se unose lagano, npr. dovoljno je učitati PDF verziju dokumenta u Mendeley koji će onda samostalno "izvući" podatke o autorima, izvorniku i dr., a uz taj zapis vezati i cjeloviti tekst rada koji smo učitali.
- Na cjelovitom tekstu rada možemo npr. raditi zabilješke, označavati pojedine dijelove različitim bojama, a potom ga "razmijeniti" s kolegama koji vide sve naše komentare i napomene (ukoliko smo tako odabrali).

EndNote

- Jedan od poznatijih komercijalnih programa za organizaciju i upravljanje referencama. Prije nekoliko godina ga je (ot)kupio Thomson Reuters, pa nam je web verzija ovog softvera, pod nazivom EndNoteWeb, bila besplatno na raspolaganju putem sučelja za pretraživanje Web of Science baze podataka, zajedno s pretplatom na Web of Science i Journal Citation Reports. Postoji i desktop verzija ovog programa koja je bolja od web verzije

Zotero

Your personal research assistant

Zotero is a free, easy-to-use tool to help you collect, organize, cite, and share research.

- Zeleni gumbić: služi za otvaranje kartica za bibliografske opise različitih vrsta građe, (podaci se moraju ručno upisati!) i stavljanje poveznica na ranije pohranjene dokumente
- „Štapić“ direktno spremanje dokumenata pomoću ISBN broja, Digital Object Identifier (DOI)
- Žuta ikona: dodavanje bilježaka uz reference, ili samostalnih bilježaka
- se može samo staviti poveznica (link) na određenu mrežnu stranicu

Općenito, PDF i HTML dokumenti koji su ranije pohranjeni negdje na računalu mogu se prebaciti u Zotero.

The screenshot shows the Zotero application interface. The main window displays a list of library items with columns for Title, Creator, and a numerical value. The item 'vision2011.pdf (application/pdf Object)' is selected and highlighted in blue. A context menu is open over this item, listing several actions: View PDF, View Online, Open in External Viewer, Show File, Library Lookup, and Manage Lookup Engines... The 'Show File' option is highlighted with an orange arrow. Below the menu, the 'Website Type:' field is visible, followed by 'Date:', 'Short Title:', and 'URL: http://www.ouls.ox.a'.

SVEUČILIŠTE SJEVER
**STUDIJ: POSLIJEDIPLOMSKI DOKTORSKI SVEUČILIŠNI STUDIJ MEDIJI
I KOMUNIKACIJA**

SEMINARSKI RAD

Razvijanje informacijsko-komunikacijskih kompetencija u

2. Knjižnice danas

Knjižnice kao informacijsko komunikacijske ustanove više su od prvotne usmjerenosti na usluge i zbirke, knjižnice su se usmjerile na korisnicima i zadovoljavanju njihovih informacijskih potreba. Knjižnice su primorane su mijenjati se u skladu s društvenim trendovima. Što je posebno potaknuto pojavom informacijsko-komunikacijskom društvu, gospodarstvo i kvaliteta života postala su iznalaženju, obradi i primjeni informacija. {Citation}

Knjižnice su stoljećima smatrane stupovima društva utemeljenim na znanju. Njihova je uloga bila, i još uvijek jest, pomoć u rješavanju problema, stjecanju novih uvida i stjecanja novih znanja.

Kroz implementaciju i korištenje digitalnih medija i tehnoloških

slobodnog i zajedničkog otkrivanja, istraživanja i učenja. Paradoksalna je činjenica da je glavni problem modernog informacijskog vremena upravo i njegova prednost, a to je velika količina
